

I am appalled that Sinclair Broadcasting is compelling their stations to air an anti-Kerry documentary just days before the election...or any time without at least a balanced reponse.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. This is certainly clear abuse of our country's interest!

If this terrible "documentary" is aired without equal time for rebuttal, I hope serious consideration would be given to suspending Sinclair Broadcasting's license.

Thank You,
